Notice: Non-delivery/Interruption of Municipal Services erupting from the Municipal Workers Strike

To: Members of the Public, Businesses & Rate Payers

A notice of an apology is herein extended to all communities of Maquassi Hills for interruption of services as consequence of the undated municipal workers' unlawful strike that has ensued for more than two weeks to date. I extend this apology obviously in mind of the ongoing discussion between the employer and employees to restore order back in the municipality.

The leadership of the municipality condemns in the strongest terms, all illegal actions displayed during this strike including interference with the normal running of service delivery. The municipality is putting in place measures to bring perpetrators & contributing criminal elements under the strong arm of the law. We will not allow elements that undermine law & order to hold the municipality & communities at ransom.

We, therefore, wish to alert you that we are forging ahead as 6th administration of Council to restore order, resolve the service delivery backlogs & attend to all emergency services.

We humbly appeal to all communities and businesses of Maquasshills local municipality to join hands with us as we restore law, order & stability. Members of community are encouraged to report /give evidence of interruption of municipal services.

Thank you for your understanding & patience

In leadership,

CLLR. Mzwandile Feliti

(Mayor Maquassi Hills LM)
