		Ext 17	08h30-14h30	The current location
			14h30-17h30	The current location

**TAKE NOTE OF THE FOLLOWING FACTORS:**

- *These interventions do not replace the current water supply*
- *The municipality is further expecting 2 additional water tankers which might lead to the schedule being changed*
- *If there is any deviation from the schedule due to operational requirements there will be constant communication*
- *Communities are advised to draw 100litres (20litres x 5) per day per household*
- *Communities are encouraged to use water sparingly due to both financial and water supply challenges*
- *Communities are encouraged to pay for municipal services.*

**Approval of the plan**
